

Teaching Fellow - Fabrication Studio

Berkeley Preparatory School

Tampa, FL

Founded in 1960, Berkeley Preparatory School is a co-educational, Episcopal affiliated, independent, college preparatory school with a current enrollment of 1,400 students in grades Pre-K through 12.

At Berkeley, we seek to educate the whole child by nurturing students' intellectual, emotional, spiritual, and physical development so they may attain their highest potential. We are committed to providing an inclusive and diverse learning community that develops the character of and a strong sense of social responsibility in each student.

Berkeley is located on a beautiful and well-equipped 86-acre campus, consisting of 29 state-of-the-art buildings. Our proud mascot is the Buccaneer. Graduates are passionate, well-rounded individuals who have learned the core values of discipline, diligence and integrity while mastering a rigorous, engaging curriculum and myriad co-curricular opportunities.

Teaching Fellow - Fabrication Studio

Through the Berkeley Teaching Fellows Program, soon-to-be college graduates, recent graduates, or change-of-career professionals have the opportunity to work alongside a seasoned Berkeley Preparatory School educator in a high-performing environment so as to gain skills and training that will translate into a successful career in education. We seek candidates who will be vibrant, contributing members of our community, and who are willing to learn and grow under the guidance of a teacher/mentor.

For the 2024-2025 school year we are seeking a Fellow who has a passion for design and fabrication using wood as the primary medium. The Fellow will be working with two highly accomplished instructors as they teach students the necessary skills and safety protocols required to complete beautiful and functional projects. Using hand and power tools, Middle Division students are guided through specific skills that increase in complexity for each project created. Upper Division students are asked what they want to make and the instructors then guide a more independent process with these older students.

Required Skills and Experience

Candidates should have some experience working with hand and power tools, coupled with a desire to increase their acumen and proficiency to the level required to teach middle and upper school students in an exceptionally well-equipped fabrication studio. Candidates with experience in any of the following areas will be considered: Design, Engineering, Fabrication, 3-D Media, Sculpture, or closely related fields. A safety-first mindset is a must.

Compensation and Benefits

The Berkeley Teaching Fellows Program is a paid fellowship offering a competitive salary and full benefits. The successful candidate will be asked to make a one-year commitment, and the program can be extended into a second year, which would entail increased responsibility. This is a full-time, year-round position. The compensation package will include healthcare, free housing (if needed) and free breakfast and lunch on school days.

Interested Persons should send a resume and detailed cover letter to:
